

LET YOUR BRAND SHINE BRIGHT.

Giving your fans a way to light up your event with branded items keeps the party going long after returning home. Introducing Amulights. Hand-made from oak, these small circles of LED-enhanced brand awareness keeps your logo with fans year-round, and helps them to carry your brand to all corners of the world.

The Amulight is a customizable, wearable product that is unique, stylish and functional. Suitable for all ages, these hand-crafted pendants integrate technology with fashion to generate a new dimension in creative expression. Built from laser cut oak and/or engraved acrylic, certain models are illuminated by a single slow fade RGB diode, adding a whole new element of expression to your brand. The Amulight can be manufactured as a pendant, backpack clip, belt clip, or over-clothing pin. Keep it earthy with our all-oak models, or go modern with shape-cut acrylic.

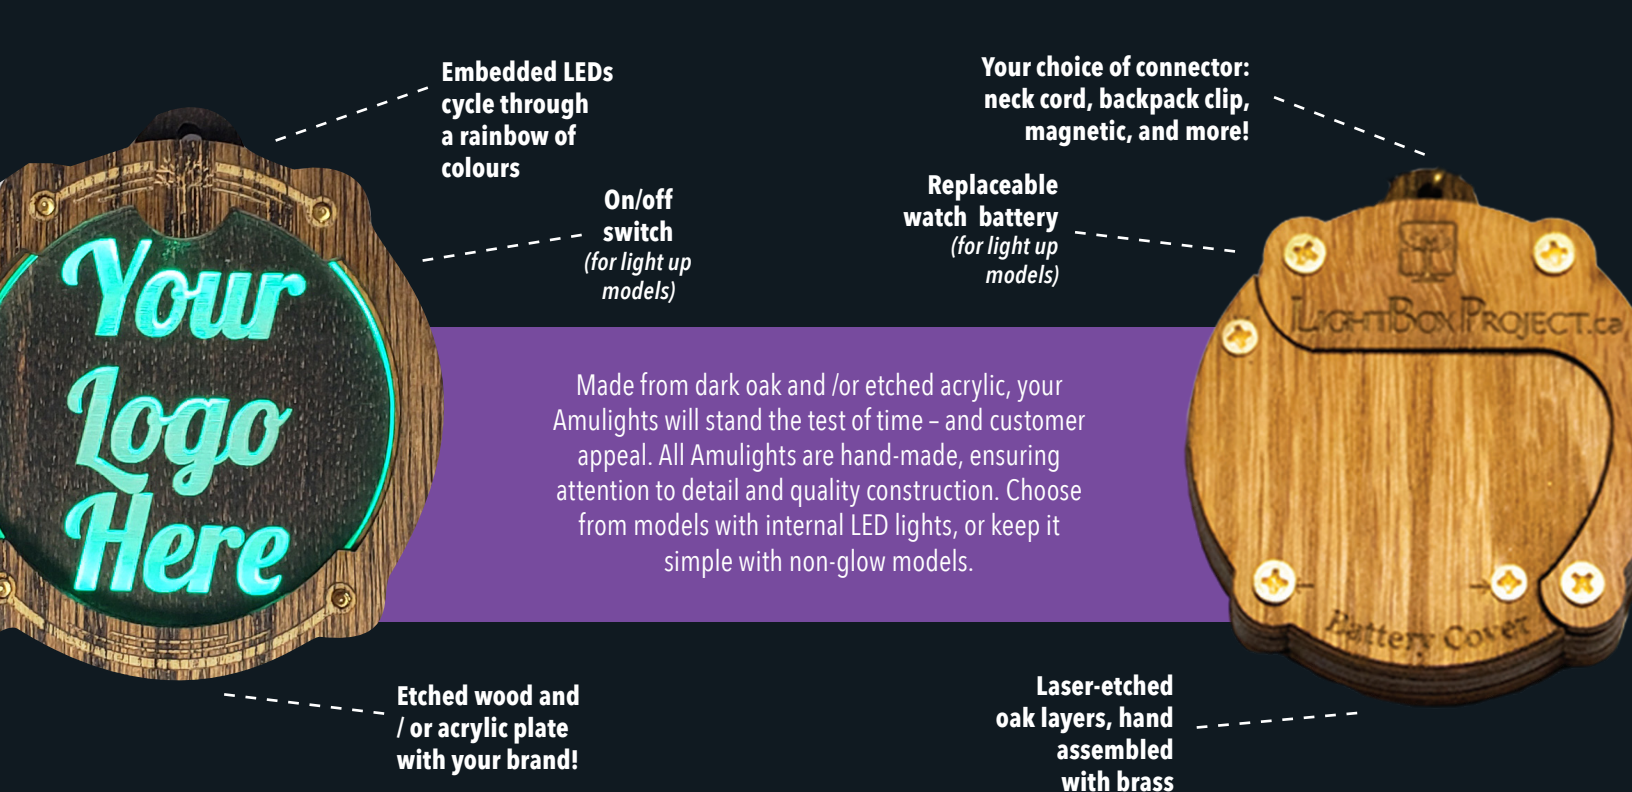

AMULIGHTS GLOW WELL WITH

music festivals • event production companies • venues
DJ brands • night races • glow festivals
evening performances • concerts

CONNECT WITH YOUR FANS IN FOUR WAYS!

Go low with your glow and choose from engraved dark wood or acrylic options, perfect for no-glow events and daytime functions. Or, glow big with our LED-powered shape-carved acrylic Amulights, or our LED powered oak circle Amulights. All the rainbow glow power for your night time fans!
